

## WASH in Emergencies 2022

# WASH Training of Online-Trainers

Virtual | 12 Jan – 19 Jan 2022

### Training Announcement

Dear Colleagues,

For the second time the German WASH Network (GWN) is organizing the WASH Training of Online-Trainers (ToOT) as an online event. With the ToOT the GWN aims at strengthening capacities to develop, conduct and facilitate national or regional WASH trainings. It targets mainly advanced WASH practitioners actively engaged in WASH capacity development, who have participated in at least one of the previous “WASH in Emergencies” regional workshops and trainings conducted by the GWN. The ToOT empowers local humanitarian WASH capacities to become WASH trainers and to address trainings needs in their specific local context independently.

This virtual version of the ToOT follows the same logic as the face-to-face version, but aims to build training skills especially in the field of digital learning activities. The digital training engages participants in a comprehensive, multi-day learning process that builds knowledge and skills required to effectively train relevant WASH topics. The very interactive ToOT includes advanced training on conceptualizing, planning and conducting trainings, intensive coaching on effective strategies and digital tools for engaging adult learners as well as practice in training and feedback. This is both a timely response to the challenging working conditions in the corona pandemic and a progressive way to develop opportunities that digitization offers our industry.

The ToOT is hosted by the Johanniter and the German Toilet Organization and facilitated by experienced trainers from both organisations. The training is part of a strategic portfolio of activities developed and carried out in close cooperation between the German WASH Network and the German Federal Foreign Office to respond to the growing demand for qualified humanitarian WASH capacities worldwide.

---

**Interested persons can apply until 22 November 2021 using the following application form:**

### Training Details

#### WASH Training of Online-Trainers **Global**

**When:** 12 Jan– 19 Jan 2022

(please be aware that some homework will be required during the weekend to prepare for your own practice session in the second week)

**Where:** Virtual Training on Zoom

**Max. No° of Participants:** 18

---

**Target Group:** Staff members and experts from humanitarian implementers and their local implementing partners, in particular from the three target regions Africa, Asia and MENA, who have participated in a previous WASH in Emergencies Workshop or Training of the German WASH Network, with explicit training or capacity building demands as part of their ongoing and planned projects. Participants are committed to engage as WASH trainers and carry out own learning offers (e.g. WASH trainings, webinars or workshops) in the future.

**Selection criteria:** The selection of participants will be done based on the following criteria:

- Applicants have participated in a previous WASH in Emergency workshops or trainings
- Applicants have profound knowledge in humanitarian WASH
- Personal commitment to carry out own capacity building formats (motivation letter)
- Commitment from employer to allow the participant to hold internal WASH trainings or to release trainer to carry out external WASH training courses (support letter)
- Concrete upcoming WASH learning offers as part of ongoing projects, in which the acquired ToOT knowledge and skills can be applied

**Attendance:** Please note that a certificate of successful participation in ToOT can only be awarded to participants who are present for at least 90% of the total training time. Since the training is facilitated online via Zoom, a stable internet connection as well as the possibility to use a webcam is necessary for participation. If you face frequent issues, please discuss with to your employer how to ensure a good internet connection at the time of training.

**Trainers:** The trainers are experienced Sphere ToT trainers and/or WASH experts and facilitators working for different member organisations of the German WASH Network and other relevant humanitarian organisations. The training will be held in English.

**Training costs:** The WASH ToT is offered free of charge.
